happiness.

Color palette is only temporary

I'm aware text is too small in the main sections but will make it larger and space things out more vertically.

What is the minimum font-size recommended for mobile?

Header will be sticky but not sure about sticky footer.

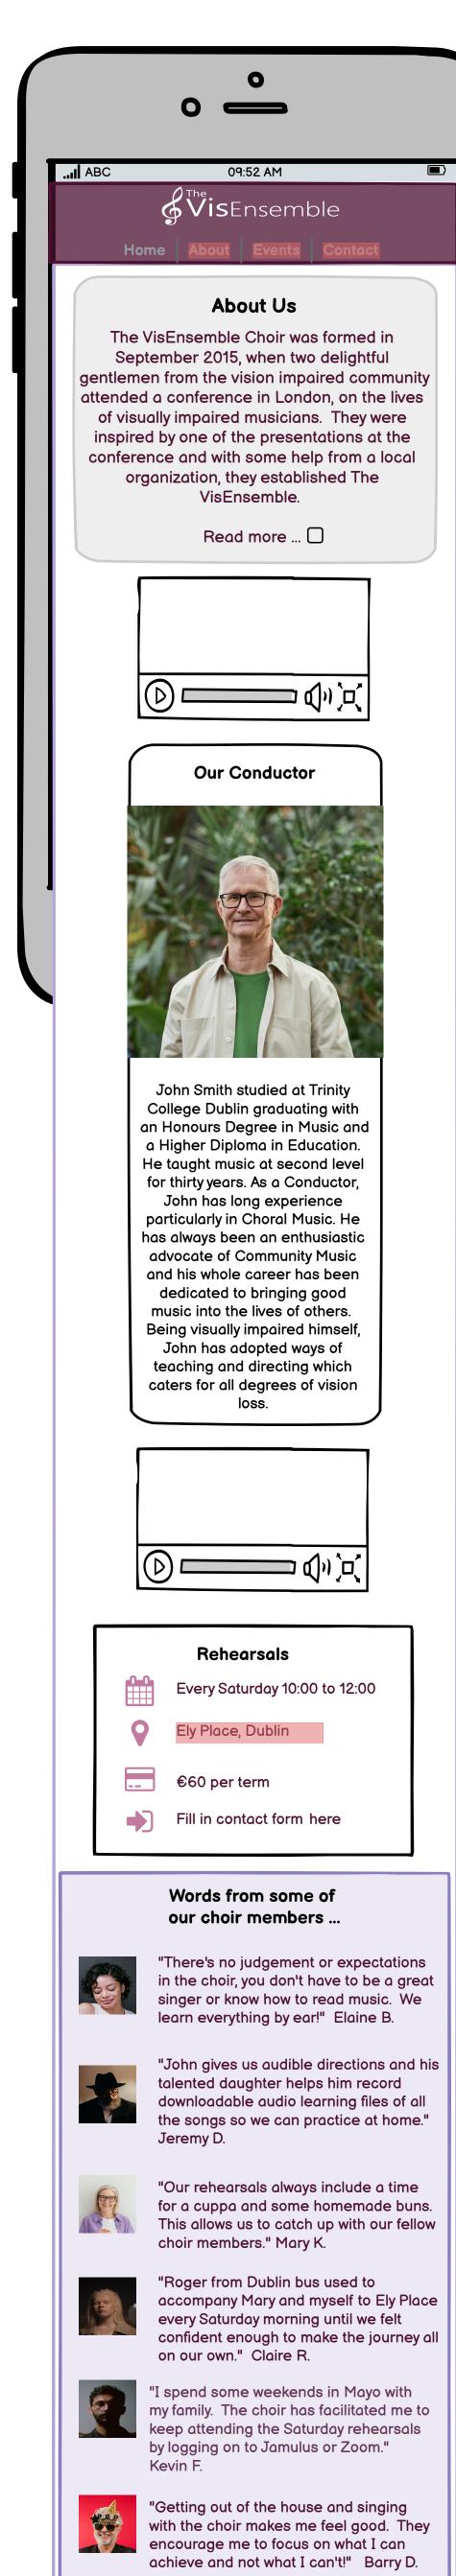

reduce stress.

Possibly have 2 vision statements per row 6 - 8 in total

About Us (history) section is too text-heavy. Read more feature without checkbox requires

JS. Have to add vertical scroll for the rest of the story.

Member Testimonials section will have round photos.

May, 2022

Hurray! We have confirmed our Summer Concert Venue for July. We're all working hard on the new material which we're hoping will be finished in time for our long awaited performance. We're also going over some pieces which we performed on Jamulus during the pandemic. Hint: 007, James Taylor and Albrecht.

If I place ' More Info' buttons, will they need to link to somewhere for the purpose of the project? I wanted modal popups but are they MVP?
